

About the International Institute

The International Institute offers comprehensive adjustment services for refugees and immigrants in St. Louis. The Institute now reaches 7,000 new Americans from 75 countries. We help these newcomers overcome language and cultural barriers, which if not successfully addressed, can result in a lifetime of poverty. Instead, with the help of the Institute, many newcomers can become independent and valuable contributors to the St. Louis community.

The Institute's Three Pillars of Services and Impact:
